

## Clip: Our car

### Thinking about my practice: Some suggested discussion points

**Theme:** *Exploring and Thinking*

**Aim 1:** Children will learn about and make sense of the world around them.

**Learning goal 1:** In partnership with the adult, children will engage, explore and experiment in their environment and use new physical skills including skills to manipulate objects and materials.

#### Questions related to the clip

- What interaction methods from pages 29 to 31 of *Aistear's* guidelines does the practitioner use?
- Pick out three words that the practitioner used in the clip to support children's language development and think of a small group experience that she could plan where these words would be reused.

#### More general reflective questions

- How might you use the children's interest in going on trips in the car to extend their learning?
- How can you encourage children to move and use materials from one area of play in another area? (As happened in this clip when the children moved the sand to the car.)
